

Climate Sunday is an initiative to help churches focus on actions to help the environment in the lead up to COP26 in November 2021.

Climate Sunday is a project of Churches Together in Britain and Ireland's 'Environmental Issues Network'.

Climate Sunday

Climate Sunday provides resources for churches and a way to speak out together.

Climate Sunday could help your church:

1. Hold a climate-focused service on a convenient date from the 6th of September 2020.
2. Encourage congregations to make simple commitments to action addressing climate change.
3. Add to a joint call for much bolder government action.
